MAHONIA REPENS	1.50
PENSTEMON FRUTICOSUS	3.00
PHYLLODOCE EMPETRIFORMIS	2.00
Pkts. of above 25¢ each.	

There may be some JUNIPERUS.

Even driving a Jeep
this year, I didn't get
some things you wanted.

I always hope to do
better another year, but
each season brings its
new crop of excuses. Let's
skip them. I truly appreciate
your friendly support and
am sorry there is only one
of me.

Increased volume will
bring travel costs down,
so until I learn a better
way, I'm glad to send
lists to your friends
who grow wild flowers and
dream of blue forests and
snowy peaks.

I got to go now and feed my
Drosera rotundifolia a gnat.
